25 June 1968

MEMORANDUM FOR THE RECORD

SUBJECT: Chain Bridge

STAT 1. On 12 June 1968 I met with Messrs. Meloon, Blake, [] and [] to discuss the Chain Bridge problem. A solution was proposed representing simple traffic control and not involving any construction. It was a rather unique idea and apparently one not heretofore contemplated. I commended the group for their offering.

STAT 2. On 18 June I called Mr. Brett of the Virginia Department of Highways and thanked him for the assistance rendered in traffic control at the Agency's Route 123 entrance. I indicated I would send him a letter and asked for the names of the other deserving officers to be included in it. I then advised that we had a suggestion for alleviating traffic conditions at Chain Bridge which I thought offered favorable possibilities. I asked if he would be available for [] to brief him on our proposal. After we hear from Mr. Brett we will consider our next step on the Chain Bridge problem.
